CONSTRUCTION

DURGA CONSTRUCTION

Our goal is to create a conducive business ecosystem, so we maintain strong and positive relationships with our collaborators and stakeholders.

About Us

Durga Construction is a well-established, Government-certified company with a 40-year legacy in the construction industry. We are proud of our registrations with various Government organizations and departments, specializing in Building Construction, Railways, Water Resources, Rural Works, Bridges, Auditoriums, Smart City Projects, and Airports.

Our team includes well-qualified civil engineers and retired executive engineers who bring extensive knowledge and expertise to each project. Their technical qualifications and commitment to excellence ensure that our clients receive top-quality workmanship and time-bound construction solutions.

At Durga Construction, we prioritize having the necessary tools, machinery, and equipment to execute projects efficiently. We maintain a wide range of building and earthwork construction equipment, allowing us to handle diverse requirements and deliver projects promptly. Currently, we have several ongoing projects showcasing our continuous growth and engagement in the industry. These projects include the construction of station buildings (Amrit Bharat Mission), RCC Walls, Overhead Water Tanks, and miscellaneous Civil works at various locations.

Our Vision, Mission & Values

Vision:

Our vision at Durga Construction is to provide exceptional construction solutions while adhering to the highest standards of safety, quality, and client satisfaction. With our extensive experience, dedicated team, and commitment to excellence, we aim to be a trusted partner for all construction needs, delivering projects that make a lasting impact and contribute to infrastructure development across the regions we operate in.

PEOPLE

Be a great place to work where people are inspired to be the best they can be

PORTFOLIO

Bring to the nation a portfolio of quality construction and services that anticipate and satisfy people's desires and needs.

PLANET

Be a responsible citizen that makes a difference by helping build and support sustainable communities

PRODUCTIVITY

Be a highly effective, lean and fast moving organization.

Our Mission:

Our mission is to be a dynamic team, delivering the highest quality construction services in a timely manner.

Our Core Values & Principles:

It's at the heart of our business- Work Ethic, Safety, Commitment, Trust, Integrity and Excellence are the basis of our corporate culture.

Quality & Safety Policy

At Durga Construction, we deliver excellence in all our projects, prioritizing quality, safety, and sustainability in every construction phase. Our commitment is to provide our clients with high-quality results while ensuring the safety of our workforce, clients, and the public. We implement strict standards and continuously improve our processes to meet or exceed industry regulations and best practices.

- ▶ **Quality Commitment:** We adhere to the highest standards in materials, techniques, and project execution, fostering a culture of continuous improvement.
- ▶ **Safety First Approach:** Safety is paramount at Durga Construction. We are committed to creating a safe and incident-free workplace by enforcing robust safety practices, conducting regular training, and maintaining compliance with safety standards.

- ▶ **Environmental Responsibility:** Our team prioritizes sustainable practices to minimize environmental impact, including waste reduction, resource efficiency, and the use of eco-friendly materials. We aim to leave a positive legacy for both the environment and the communities we serve.
- ▶ **Employee Empowerment and Accountability:** We empower our employees to take ownership of quality and safety, encouraging open communication and accountability. Regular training and certification ensure that every team member is equipped with the knowledge and skills to uphold our standards.

Sector of Operations

Railways

With over 25 years of expertise and a successful track record in executing railway infrastructure projects exceeding ₹700 Crore, the company delivers comprehensive railway solutions. We have established ourselves as a trusted partner in India's railway infrastructure development.

Buildings & Infrastructure

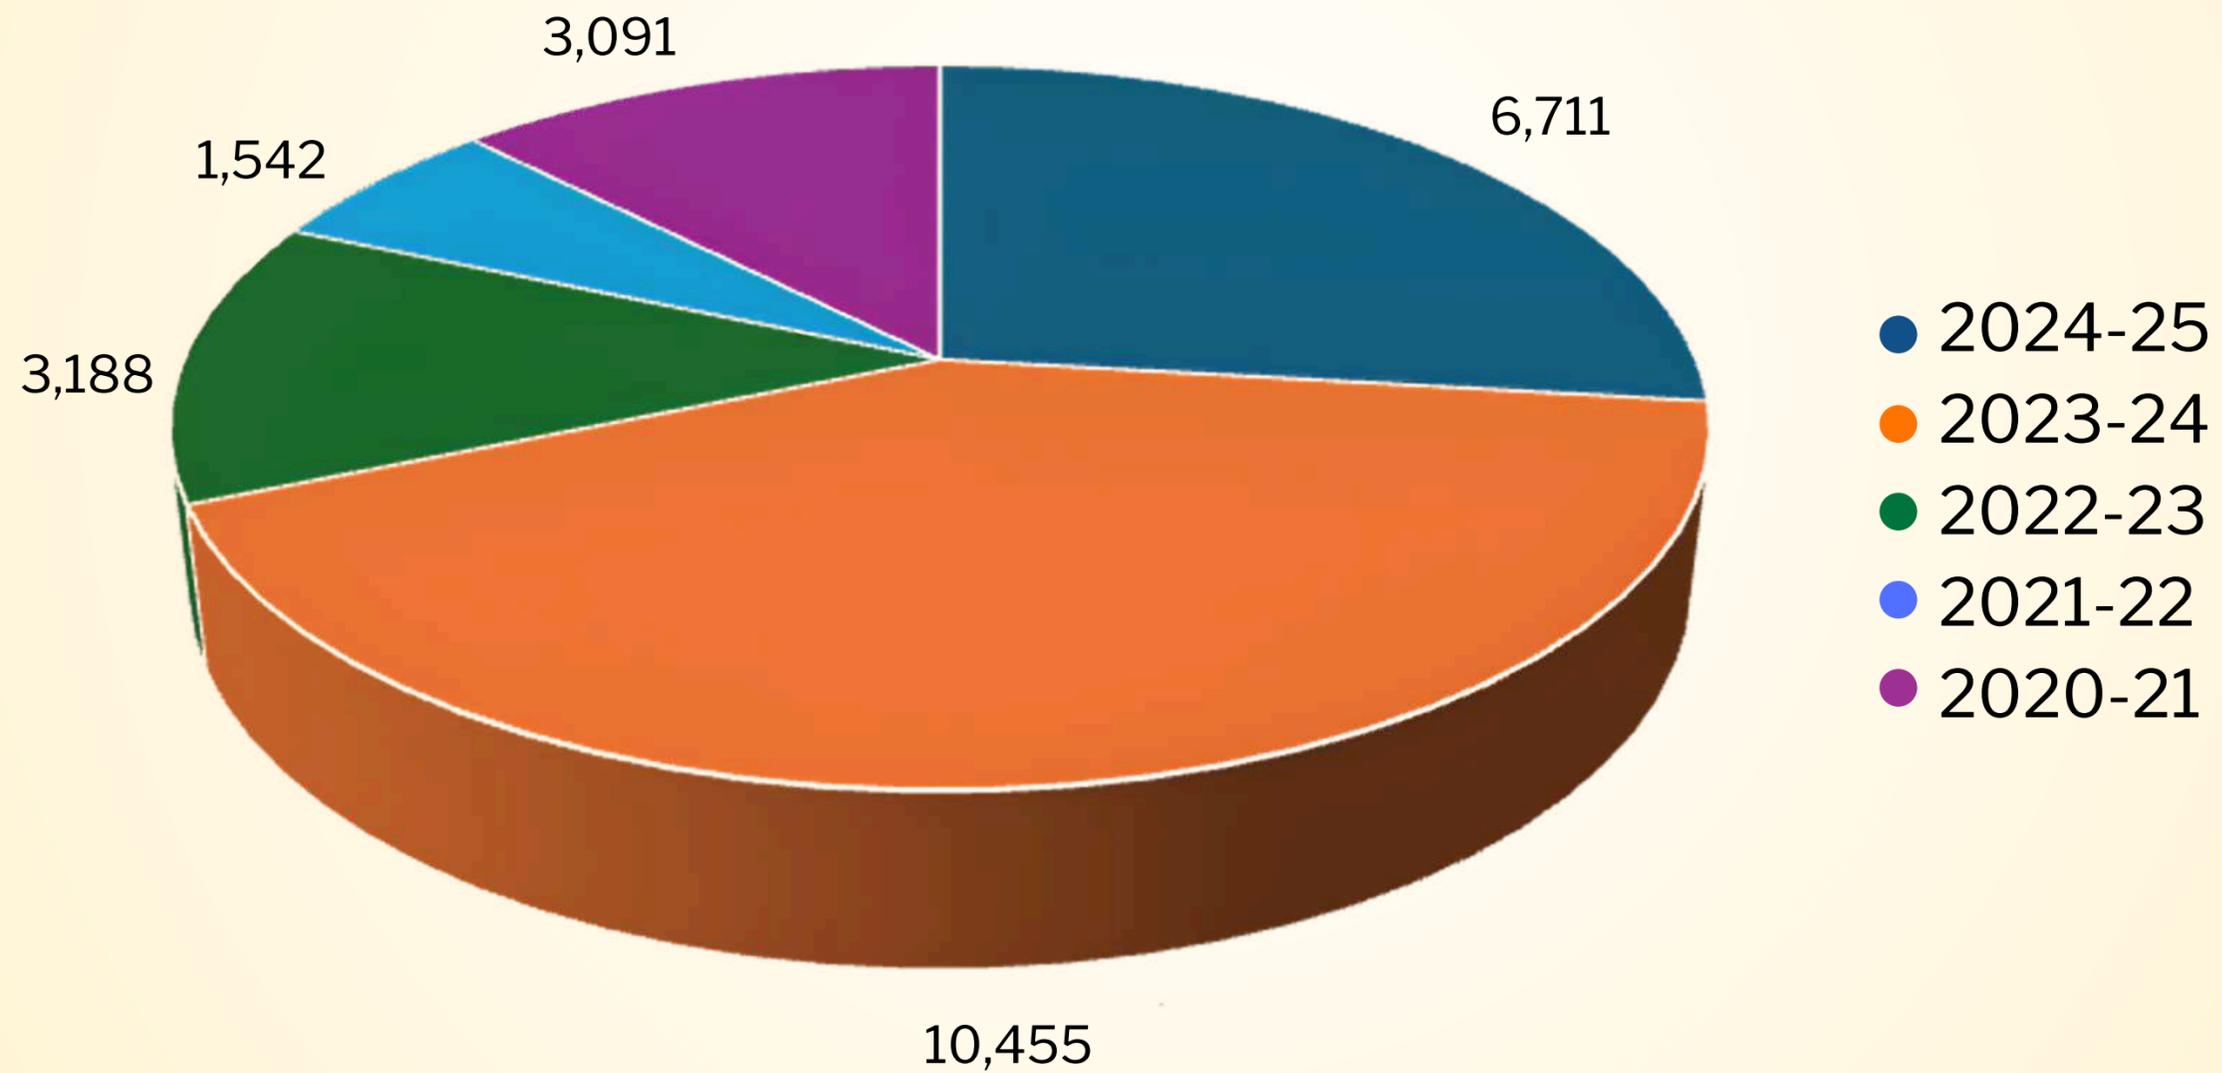

With more than 25 years of experience and a proven track record of executing projects worth over ₹550 Crore, the company undertakes comprehensive civil construction projects, including auditoriums, administrative buildings, commercial complexes, and canals.

Transmission & Distribution

As part of our strategic growth and diversification, we have ventured into the Transmission & Distribution (T&D) sector. We bring the same commitment to quality, execution excellence, and engineering precision that has defined our success in the building and railway sectors for more than 25 years.
